Blue Springs, MO
Children's Ministry

“Directions” for ministry volunteers

- There is a Ministry Guide notebook outside each classroom door. The ministry guide houses all of the student information, ministry goals, policies and procedures. This is a good resource to use when a question comes up.
- Classroom ratios are listed in the Ministry Guide
- Please make sure you check each child in and record their attendance. The child should have a name tag as well and preschool families should have proper identification when picking up their child at the conclusion of the service.
- Please wear your name tag at all times so children and families can identify you as a volunteer
- There is a supply room and copy machine located on the second floor of building C.
- Safety is important! Please be aware of who asks to use the restroom and leaves to get a drink.
- Parents or an assigned caregiver/adult are to pick the child up from the classroom. Please do not release kids to go on their own or with another child.
- Further training will be provided by the team coordinator or staff person responsible for your ministry area.
- Other training may be offered through written material.
